ONE RESOLUTION was passed yesterday by the Republican County Convention to which we decidedly object. This resolution, as we understand it, deprecates the immigration into this country of laborers from abroad, and calls upon Congress to impose a head-tax upon foreign laborers coming.

The wealth and strength of a nation consist mainly in men and women, who have faculties, know how to use them, and are not afraid of work. Every such man or woman is a positive gain in this country, and will be for a long period to come. It is every way desirable to encourage the immigration of laborers from abroad until all the industries essential to the highest civilization shall be here developed, and in the highest perfection. If men are to fabricate for the American market, here is the place for them to do it.

Nor do we believe in putting a tax on immigrants. We would as soon or sooner think of putting a tax on gold and silver coming into the country.

Take laborers of all grades who were either foreign born, or whose fathers and mothers were born abroad, out of Allegheny county, and a fatal check would be given to all sorts of industries here.

The resolution is wrong and mischievous, and we respectfully call upon the County Executive Committee to rescind it.

THE DELEGATES from Allegheny county to the Republican State Convention at Williamsport, are: Senatorial, Thomas M. Marshall and Samuel A. Purviance; Representative, S. H. Geyer, J. M. Kirkpatrick, A. M. Brown, Solomon Schoyer, B. F. Lucas and James L. Graham. Excepting the last named gentleman, they are all lawyers, and of prominence in the profession. They are charged with the duty of bringing before the Convention the name of the Hon. H. W. Williams, for nomination as the candidate for the Supreme Bench.

It now looks as if the western delegates would pretty generally unite in his support. Both his character, abilities and experience have given him a very strong hold upon the confidence of the people of this portion of the Commonwealth, and it is both wise and just for the party to make him the nominee.

THE NEW YORK Constitutional Convention assembled yesterday at Albany. The Republicans were strongly in the majority, and secured the organization. The only important question discussed was that introduced by Mr. Brooks in debate, charging the body as partisan in its character. To this Mr. Greely clearly replied, setting forth that inasmuch as the Democrats had opposed the Convention, and probably would oppose any constitution it might offer, it was forced to assume a partisan character. The country will watch with deep interest the deliberations of the important political gathering.

CANADA is again alarmed. The Fenians have given signs of invasion, and depending not on their ability to repel attack, the Canadians have, as it is reported, provided for speedy intervention on the part of the United States Government to protect them from the "boys in green." It hardly seems possible that the Irish of America will second any such movement as an early invasion of that country. It can only result in disastrous consequences to themselves, and in no wise help on the interests of their mother country.

THE HON. J. K. MOORHEAD announced, yesterday, at the Republican County Convention, that he would not consent again to be a candidate for Congress. He has represented the twenty-second district (which includes Pittsburgh) for several successive terms, and with marked intelligence and fidelity. In retiring from public life he will have the consciousness of having performed his public duties well, and will carry with him the respect and confidence of his constituents.

IF PRIVATE advices from San Luis can be relied upon, Maximilian ere this has set foot upon our own soil and escaped the penalty of death. He has probably been permitted by Escobedo to depart on promise never more to interest himself in the affairs or government of Mexico. Our reports from Mexico, however, are vague and uncertain, and the whereabouts of the prisoner can only be conjectured.

CONTRARY to a statement made several days since, that the report of the Secretary of the Treasury for the month of May would exhibit an increase of public debt, it will show a large reduction. This announcement will prove the more gratifying since it follows one calculated to inspire the public mind with the belief that our financial affairs were going backward.

THE "liferaft", manned by a few reckless mariners, with provisions aboard for thirty days travel, yesterday departed from New York for Havre—or heaven. Such bravery and daring amounts to nothing short of foolishness. The fools risk their lives not to benefit science or navigation, but simply to win admiring plaudits from the world.

THE municipal authorities of Fayetteville, N. C., who have been slow to learn their primary lesson in reconstruction, have been set aside by the military commandant and more trustworthy citizens delegated to fill their places.

ATTORNEY GENERAL BREWSTER has presented to the Supreme Court of this State information for a *quo warranto*, in the matter of the Gettysburg Asylum. The argument will be heard at Philadelphia on the third of July.

THE account by telegraph of the dedication of the monument to the memory of the President's father will prove very interesting. Mr. Johnson wisely abstained from speech-making on the solemn occasion.

THE Atlantic Telegraph Company attach but little importance to the breaking of the cable of 1866, as it can be easily repaired. The place at fault is only one and a half miles from the land, in shallow water.

GEN. SHERIDAN, with the frankness of a true soldier, states his reasons for removing both Boards of Levee Commissioners. His portraiture, moreover, of Gov. WELLS, is vigorous.

TWO MORE CASES of cholera are reported in New York. The presence of the dread pestilence in that city should, but we fear will not, incite our health authorities to sanitary measures.

OVER fifty thousand persons were at the New York Central Park, on Saturday afternoon. That great breathing spot is fully appreciated by the Gothamites.

THE New York Constitutional Convention has begun its deliberation. Its sessions will probably occupy three months.

ONE O'CLOCK.

CEREMONIES AT RALEIGH, N. C.

Dedication of the Monument to the Father of President Johnson—State Dinner to the President and Party.

[By Telegraph to the Pittsburgh Gazette.]

RALEIGH, N. C., June 4.—The ceremonies at the City Cemetery, in connection with the dedication of the monument to the father of President Johnson, commenced to-day at noon. The monument is a single shaft of red limestone, ten feet high, with ornamental cap, and bears the following inscription:

"In memory of Jacob Johnson, an honest man, beloved and respected by all who knew him. Born ——; died January, 1812, from a disease caused by an ove effort in saving the life of his friend."

The President and party, accompanied by Governor Worth, General Sickles and others, having reached the cemetery in carriages, were conducted to a platform near the monument. A very large number of spectators were present, all apparently deeply interested in the ceremonies. After preliminary religious ceremonies, Hon. D. L. Swaine, L. L. D., President of the State University, delivered an address, in which he traced the history of the family of Raleigh, and in this connection alluded to Jacob Johnson, who, by a deed of noble daring, saved from drowning Henderson Colbun, at the ultimate cost of his own life, passing away eventually a martyr to humanity. The orator, among other things, alluded to the fact that three natives of the state of North Carolina—Jackson, Polk and Johnson—had passed from obscurity and poverty in North Carolina to comparative opulence in Tennessee, and thence to the highest point of honor in the Union and world.

Dr. Swaine concluded his very able and eloquent address as follows: Of the history of the son of Jacob Johnson, who commenced life under comparatively unfavorable auspices, this is not the time to speak. The companion of his boyhood, Leonidas Polk, whose chance it was to mingle his blood in the fray, has passed the portals of the grave. The President of the United States is before you, scarcely older in time worn than the latter. General seemed at our last interview. His career in life thus far is one of unusual remarkable of any age or nation. His country and the world, the dividing line between the two parties which divided North Carolina and South. He who achieved success, if not more pure, certainly was as brave as disinterested, and wiser than his compeer. The monuments of the latter are before you. He crossed swords may be suspended as a monumento of the past, and a warning of the future. The blood of the noblest heroes on both sides of conflict will water the tree of union in the veins of the descendants of those who met in deadly strife on many a well fought field. The people of the whole North, South, East and West, already beat in unison. The time has arrived when patriotism, not less than Christianity, requires forgiveness of all that the law cannot forget. Let the crossed swords of the monument, surmounted by the stars and Stripes, form an appropriate memorial association for Confederate and Union dead, and no strife be engendered above their graves, but a generous and generous emulation to be first and foremost to promote harmony and good will and restore the Union. Our Union is perfect Union designed by the Constitution of our common country.

The ceremonies closed by a benediction. Then two young girls came forward and tenderly laid bunches of the choicest flowers on the grave of Jacob Johnson.

The following paragraph was inadvertently omitted in Governor Worth's the speech of the President yesterday:

"I have come to participate in the ceremonies of dedicating a monument to a man whom you respected, though of poor and humble condition. He was my father, and at this late period of life, I can say, kind and faithful friend, a character I prize higher than all the worldly fortune which could have been left me."

The President, accompanied by Secretary Seward, Postmaster General Randall and others, were escorted to the capitol at ten this forenoon, by a company of United States regular cavalry and infantry, under command of General Sickles and Staff and a number of prominent military officers and civilians, including the Mayor. A reception took place in the hall of the House of Commons. The visitors, after saluting the President, were severally introduced to Secretary Seward, Postmaster General and General Sickles.

The deaf mutes, from the State Asylum, were marshaled into line, who passed in prospects to the President. White and black vied with each other in paying the President every attention and courtesy, and all were received in the most kindly manner.

RALEIGH, N. C. June 4.—This afternoon the President and party attended a State dinner at the Yarborough House. The entertainment was in elegant style. No toasts were drank nor speeches made. The President, in company with Secretary Seward, Postmaster General Randall and others, visited the State charitable institutions in the vicinity.

The Presidential party leave to-morrow morning to attend the Commencement Exercises at Stader University, at Chapel Hill, and may sojourn there until Friday.

FROM NEW ORLEANS.

Levee Commissioners—The Board Abolished—Reasons therefor—Governor Wells Denounced by General Sheridan and Removed—Jacob Baker Takes a Proposition to the Bank of Commerce.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 4.—An order was received yesterday, from the President through the Secretary of War, by General Sheridan, directing that all further proceedings in the matter of the Levee Commissioners be suspended, and that General Sheridan report the reasons for his order removing those Commissioners.

General Sheridan, in answer to the Secretary of War, in reference to the Levee Commissioners, says the Board is composed of the whole of the two former Boards: That the Legislature last winter passed an act continuing the old Levee Board in office, so that four millions appropriated last year had to be disbursed by a Board of resolutionists. After the adjournment, the Governor appointed the Board of his own, in violation of this act, and made the acknowledgement to General Sheridan that his object was to disburse the money in the interest of his own party, by securing for it votes at the time of the election. The old Board refused to turn over its papers to the new Board, and has appealed to General Sheridan to sustain it, which he would not do, as the question would then have gone to the courts and taken a year to decide. The whole state was then covered and the people suffering. To abate this trouble and afford immediate relief, when the honest disbursement of $4,000,000 would give, a gin offer dissenting both boards was issued. I say now, unequivocally, that Governor Wells is a political trickster and a dishonest man. I have seen him myself, when I first came to this command, turn out all the Union men who had supported the Government, and put in their places rebel soldiers, some of whom had not doffed the gray uniform. I have seen him again, during the July riot of 1866, striking away where he could not find him, to give him a guard, instead of coming out as a manly representative of the State, and joining those who were desirous of preserving peace. I have watched him since, and his conduct has been as *sinuous* as the track left in the dust by the movement of a snake. I say again, that he is dishonest.

General Sheridan also immediately issued an order, for the reasons set forth above, removing Governor Wells and appointing Thomas J. Durant, a native of Louisiana, a prominent lawyer and a staunch Union man.

General Sheridan also issued orders removing the Street Commissioner and appointing William Baker in his place. The cause of this removal is neglect of duty and the unclean condition of the city.

Jacob Barker proposes to the creditors of the Bank of Commerce to form a joint-stock Company, with a capital of half a million dollars, to build houses and stores, the stock to be paid for in checks on the Bank of Commerce. He proposes to turn over to the Company all his real and personal property, as well as the assets of the bank. General Sheridan's removal of Governor Wells, is commented upon favorably by the press, and appears to be regarded favorably by the majority of the people.

Baker, the newly appointed Street Commissioner, is one of the registers in the First district.

MASONIC MEETING.

The Grand Lodge of the Masons of this State commenced their annual communication at Irving Hall to-day. About one thousand voting members, and as many visiting brethren, are present. Grand Master Holmes delivered the annual address. He stated much had been done for the suffering brethren South, but there was still much to be done by the Masons for the great distress yet prevailing. Dispensations for fifty-three new lodges were issued during the year in this State. Negotiations are in progress for a Masonic asylum in Schuyler county. Jonathan Post was appointed representative to the session of the Grand Lodges of the world, at Paris, June 15th.

MURDER AT ALBANY N.Y.

Hiscox, Member of the Constitutional Convention, Killed by Gen. Cole, of Cavalry Fame—Revenge the Incentive to the Deed—Hiscox Charged with Raping Cole's Wife.

[By Telegram to the Pittsburgh Gazette.]

ALBANY, N. Y., June 4.—Hon. L. Harris Hiscox, a member of the Constitutional Convention, was slain last night in Lodge Hall, by a man who talks deliberately of the deed and says he can justify it.

ALBANY, N. Y., June 4.—The man who shot Hon. L. Harris Hiscox, is George Cole, a lumber dealer, of Syracuse. About half-past eight o'clock Hiscox was standing in the passage room of the hotel, near the clerk's desk, in his slippers. Cole, who was sitting near by, rose and approaching Hiscox, made some remark which was not overheard by those near. He immediately thereafter drew a small pistol and presenting it at his head fired, the ball entering near the right eye. Hiscox fell senseless, the wound bleeding profusely. He expired within thirty minutes. Cole declared that Hiscox had been his best friend; but while he (Cole) was in the army, where he rose to the grade of General in the cavalry service, he had raped his wife, and added, "I have the evidence now in my pocket." He quietly awaited the coming of the police, and was conveyed to the station house. A coroner's jury is being impannelled, but it is not likely the inquest will be commenced until to-morrow. Cole is a man of strong build, and, like Hiscox, who is larger and heavier.

FROM MEXICO.

Rumors Concerning Maximilian—Further About His Capture—He Surrenders in Person to Escobedo.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, June 4.—A telegram from Galveston says that a letter has been received from Queretaro, date not given, reporting that Maximilian and his principal officers gave up their swords to Escobedo himself, and the entire army of Maximilian, with artillery and ammunition wagons, surrendered. The following civilians are prisoners: Maximilian, Mejia, Castello, Cosana, Campas, and Miramon. The latter was captured in the streets of the city shortly after the surrender. Lopez is also said is missing. Over two hundred subalterns were also captured. Maximo Camperes, it is reported by private letter, was shot on the 16th. Maximilian had a severe attack of the dysentery on the evening of the 15th. Private correspondence from San Luis says he had recovered, and was expected in that city, and that it is probable he has ere this crossed over into the United States on his return to Austria. It is rumored Lopez has delivered up Fort Cruz. The official report of Escobedo announces the capture of Col. Louis Garcia, of Tolucas, and Col. Miguel, of Palacio Palacio.

NEW YORK CONSTITUTIONAL CONVENTION.

Organization—Horace Greeley Replies to the Charge that the Convention is Partisan.

[By Telegraph to the Pittsburgh Gazette.]

ALBANY, June 4.—The Constitutional Convention assembled to-day. Wm. A. Wheeler, Republican, was chosen President, receiving one hundred votes. There was nine scattering. Minor appointments were then made and the rules of the Assembly adopted.

Hon. Horace Greeley offered resolutions asking of the Comptroller the original cost of the canals, including engineering, and the cost of superintendents, repairs, &c., aggregate receipts and income of each canal, &c. It appearing that such information was before the former the Convention, the resolution was tabled.

Mr. Greeley answered Mr. Brooks, in relation to the charge that the Democratic organization of the Convention, saying the Democrats had opposed the Convention, and would oppose any Constitution it should make.

S. J. Tilden denied that the Democrats had any such purpose, unless Mr. Greeley meant by indirect legislation a Constitution was likely to be made which ought not to be ratified.

THE TURF.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 4.—The Patterson races for the Underwood gift of three hundred dollars, mile heats, was won by Alexander's colt Vigil, distanced last day, and Dolscomb Mittle third, and Metairie last, in both heats. The Derby was won by Morris' colt Monday—one in 2:40, 2:39½. Ruthless was second, Decorry third, and Cordelia last. Delaware walked over for the two mile heat.

LOUISVILLE, June 4.—There was a very large attendance at Woodland Course, today. The first race for the Merchants purse, $1,500, two mile heats, four entries, was won by "Lee Boul," time 3:44; 3:40½. In the first heat "Stonewall Jackson" came in second. "Merrill" third. In the second heat "Merrill" came in second, "Stonewall Jackson," third; Stonewall Jackson was the favorite before the race. The second race was unimportant.

GEN. SICKLES' DISTRICT.

General Order Defining the Qualifications of Civil Officers, &c.

[By Telegraph to the Pittsburgh Gazette.]

CHARLESTON, June 4—General Sickles has issued an order defining the qualifications of civil officers, authorizing the removal of local officers to be vigilant in maintaining order; authorizing the post commanders to summon all officers and citizens to their assistance when necessary to execute an order; no licences to sell liquor in quantities less than a gallon will be granted unless the applicant keeps a grocery, and persons found drunk on the premises will be cause for revocation of license; all contracts heretofore for the manufacture, sale, transportation, storage, &c., of liquor, will be deemed against public policy and not to be enforced; no distinction of color or caste will be allowed in public conveyances; remedy by distress for rent is abolished, where lands are let out for hire or rent.

THE FENIANS.

Preparing for a Demonstration on Canada—The Authorities fully Informed.

[By Telegraph to the Pittsburgh Gazette.]

MONTREAL, June 4.—Parties from the eastern border report bands of Fenians prowling about and preparing for a demonstration before the middle of the month. The authorities are fully informed of what is going on. Communications are said to have taken place between the executive here and at Washington, with a view to concerted action in case anything occurs.

B and H, fifth artillery, and all his headquarters. This morning Major Head, 2nd United States Infantry, assumed command as soon as Gen. Burton leaves. The garrison of the Fort will then consist of three hundred and thirty-five men.

CONDENSED NEWS.

[By Telegraph to the Pittsburgh Gazette.]

—The American Atlantic Telegraph Cable Company, have elected Mr. Haight, President; Mr. Charles L. Frost, Vice President; Mr. Vibbard, Treasurer; and W. O. Stoddar, Secretary. Measures were adopted to commence active operations and have the cable made. This company received the grant from the last session of Congress for twenty years to the coast of the United States, and the government to pay for all the messages it sends. They also received the act passed by the Bermuda legislature, which grants them favorable privileges to land; that government paying for all messages sent, and the French government has offered them the grant to land on any part of the coast on liberal terms. This is the only company that has the authority from our Government or the foreign governments to lay and work cables from the United States.

—The Senatorial excursion party reached the North Platte, three hundred miles from Omaha, on Monday night, and during yesterday they visited one of the Forts, in company with Lieut. General Sherman. The weather is represented as delightful and the excursionists are enjoying themselves immensely; being supplied with good rifles they keep up a continued fire at antelopes and other game found along the railroad track.

Treasury Statement for May—Public Debt Reduced—The Indians—Attorney General and Reconstruction.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, June 4, 1867.

RUSSIAN AMERICA.

A private letter from Collector Miller, of San Francisco, to the Secretary of the Treasury, speaks in high terms of the wisdom of the acquisition of Russian America.

MAY TREASURY STATEMENT.

On account of the unexpected receipts of a miscellaneous character, and from the internal revenue for the month of May in small months, and the small requisitions from other departments, the statement of the Secretary of the Treasury for May will show not only a very large currency balance in the Treasury, but a considerable reduction of the public debt.

ATTORNEY GENERAL AND RECONSTRUCTION.

In the Attorney General's late opinion, his promise of additional one, more practical, under the head of Executive and Judicial officers, to be based on actual abuses in course of practice, has been overlooked by many readers in the South, whose letters reach the Attorney General in great numbers, stating public cases, on which of course he cannot lawfully give particular opinions on. In abundant time for the elections the necessary data can be obtained, when the supplementary opinion will be promptly promulgated.

INFORMATION CONCERNING THE INDIANS.

A private letter received here from Col. Parker, of General Grant's staff, who is one of the Commissioners to treat with the Indians, for the purpose of investigating the late Fort Kearney Massacre, states that on the 19th of May he met Gen. Sherman and Brevet Major General Sully, of the same Commission, were in Sioux City, Iowa, whence they would leave for Fort Randall, where they intended almost constantly on the move. The various statements relative to the hostile attitude of the Indians, in the North West, has received additional confirmation from Col. Parker.

IMPORTS AND EXPORTS.

The monthly report of the statistical Bureau for May, shows the imports for the four months ending April 30th to be $132,327,816, and for ten months of the fiscal year, $354,000,000. The exports for four months $183,869,779, and for ten months $369,603,879, including $176,225,941 cotton exports, and for ten months $16,208,945. The receipts $8,165,089, and for ten months $16,208,945.

The amount in bonded warehouse, on the 30th of April, was $38,435,915. The receipts of internal revenue to-day, were $1,925,633.

UNION REPUBLICAN COUNTY CONVENTION.

Prothonotary, Treasurer, County Commissioner, Jury Commissioner and Coroner Nominated—Delegates to State Convention—Resolutions, &c.

The delegates elected at the Republican primary meetings on Saturday last, to nominate candidates for the various county offices, and elect delegates to the Union Republican State Convention, to be held in Williamsport, the 17th inst., assembled in convention at the Court House Tuesday, at 11 o'clock A. M. The attendance was large, every district in the county being fully represented. The meeting was called to order by John W. Riddell, Esq., chairman of the County Executive Committee. He stated in a brief manner the objects of the Convention, and regretted that business in the Grand Jury Room prevented his remaining with them.

On motion of A. M. Brown, Esq., Thomas M. Marshall, Esq., was elected to the chair by a unanimous vote of the Convention. Mr. Marshall took the chair, and in a very appropriate manner thanked the Convention for the honor they had done him, and hoped that the meeting would be a harmonious one. He referred briefly to his connection with the Republican party, and the great change which had "come o'er the spirit" of the people's dreams since its organization.

On motion the permanent organization was completed by the election of the following Vice Presidents: M. S. Humphreys, of South Pittsburgh; Samuel M'Mahon, Lawrenceville; W. Wallace, Esq., Indiana; Capt. R. L. Wood, Versailles township. Secretaries—Dr. A. G. M'Candless, J. R. M'Cune, D. B. Ferguson, Col. W. R. Neeper. The committee on credentials were then called for, when the following were presented:

Hampton—S. S. Brown, Geo. Allison.
Liberty—Jos. M'Call, W. H. Denny.
Oakland—Wm. Harrison, J. A. Gray.
Peebles—J. B. Palmer, J. G. Beales.

When the roll was called, two sets of delegates presented credentials, Messrs. Robert Long and William Hill and W. G. Bigham and Samuel Nixon appearing as contestants.

On motion of Major A. M. Brown, the chair appointed Messrs. Allen Means, George Perkins, Robert Long, Wm. Hill, Jr. Forsyth and George Wilson as a committee on credentials.

The committee was instructed to meet immediately in the Sheriff's office to hear the claims of the contestants.

On motion the following gentlemen were appointed as a Committee on Resolutions: Major A. M. Brown, W. S. Purviance, Thos. Steel, David Holmes, W. E. Harrison, A. D. Anderson.

A. M. Watson, Esq., moved that a committee be appointed to wait upon Judge Williams, of the District Court, who had been spoken of in connection with the Supreme Judgeship, and request him to signify his preference as delegates to the Judicial Convention to meet in Williamsport.

Major Brown said he was heartily in favor of the motion, but thought Judge Williams would feel it a deliberate insult to the election of delegates. He was an able jurist, and his claims were urged with great earnestness by a majority of the members of the bar of this county. It was desirable that such delegates should be sent to that Convention as will be able to present the claims of our candidate in the strongest manner, and to use every effort to have the wishes of Allegheny county carried out by his nomination.

The question recurring on the motion for the appointment of the Committee, it was adopted.

The chair appointed the following gentlemen as said Committee: Messrs. A. M. Watson, T.

The Pittsburgh Gazette

WEDNESDAY, JUNE 5, 1867.

THE REPUBLICAN COUNTY NOMINATING CONVENTION, which assembled yesterday, had a very harmonious session. Except in the matter of Coroner, there was hardly a contest. Mr. JACOB H. WALTER was re-nominated for Prothonotary by the strong vote of 124 to 37. He has made a superior officer, the proof of which is in the decided majority he obtained over a deserving competitor. Jos. H. DENNISTON was nominated for County Treasurer, by the yet stronger vote of 144 to 6. As a man he is beyond reproach, and has, besides, an excellent war record. For County Commissioner ARCHIBALD PILLOW had many more votes than his three contestents put together. For Coroner, WILLIAM CLAWSON was re-nominated by a vote of 98 to 61, though his rival is a meritorious gentleman. For Jury Commissioner, a new office, created by the last Legislature, CHARLES PUGH was selected.

Nominations for the State Legislature will not be made till September.

DECREASE IN REVENUE.

At the last session of Congress, men experienced in most branches of manufacturing industry, besought a revision of the impost duties on foreign goods, which would enable them to make head against foreign competition. Instantly a clamor was raised to the effect that the increase of duties solicited was not necessary to put the domestic producers in positions to compete successfully with their foreign rivals, but was desired simply to create monopolies which would enable the home manufacturers to increase their profits altogether beyond the bounds of reason. The revision of the Tariff was defeated. As some sort of compensation the excise duties were diminished.

Now, what has been the result? The receipts from Internal Revenue have fallen off full forty per cent. Instead of the reduction of the Public Debt continuing, that debt is likely to be increased very materially. This shows that the manufacturers, instead of seeking undue advantages, were absolutely correct in their judgment of the case; while the clamorers for Free Trade were altogether in the wrong.

It is now insisted, in some quarters, that the refusal to increase the impost duties was right, and that the wrong was in letting off any part of the Excise duties. This is to talk nonsense. If the Excise duties had been kept as they were, the Impost duties remaining the same, production would have fallen off still more than it has; the monthly dues would have fallen much below the point already reached; and instead of a diminution of the Internal Revenue by forty per cent. the contraction would have reached sixty.

This instance does not stand as an exception to past experience in the revenue affairs of the government. In every case in which heed has been given to the opponents of Protection, and distinct approximation has been made towards Free Trade, the national finances have been crippled and the business of the country paralyzed.

IMPROVED GLASS POT.

The *Mining and Scientific Press*, of San Francisco, calls attention to the fact that notwithstanding the activity of modern invention no improvement has been introduced into the form and construction of melting pots for making glass for some hundreds of years. Two kinds of pots have been steadily in use—one open and the other hooded or covered to keep the impurities of the furnace from being mixed with the glass. These last are used in all flint or fine glass furnaces, and have only a working hole open to the external air, through which they are filled with charges of raw material, and by means of which the workman has access to the melted material when blowing.

It further states that it has been reserved for a California manufacturer to make the first essential improvement in pots on record. This improvement is simply an ingenious application of a well known principle of adding fresh oxygen to the liberated gasses and smoke, from burning coal, before they pass into the flue for escape into the outer air, whereby they are more thoroughly consumed. The incidental advantages derived from this, are of far more importance to the glass manufacturer than the mere saving of fuel and time, as will hereafter be shown. The gasses and smoke which in the present mode of constructing closed pots and furnaces for fine glass working are made to pass *over* the pots into the flues, are by this invention caused to pass *into* the pot during the process of melting, through an aperture in the top, at which point they meet a current of fresh air by which they are ignited and kept burning like a huge gas jet, in such a manner that a large volume of flame is made to play directly over the material to be melted (the working aperture, in the meantime, being closed,) while the products of this gaseous combustion are conveyed from the interior of the pot through two conveniently devised apertures, opening from the inside and leading by proper flues to the main stack. When the glass is ready for working, all these temporary apertures are closed up, and the smoke and flames from the furnace pass up the stack through bye-holes, in the usual manner. The apertures are also prevented, by being so closed, from admitting from the outside any draft through the working-holes, by which the interior of the furnace might be chilled. The extra cost of constructing a pot after this invention is a mere trifle, not exceeding one dollar.

Incidental advantages are claimed to result from this improvement. 1. By means of the great heat which can be maintained the "sandever" or salts which appear to consist in an excess or impurity of the fluxing materials, can be burned off. 2. In green glass manufacture, it is possible to use the common sulphate of soda waste of the acid factories, instead of the "soda ash" of commerce. 3. Saving of furnace destruction, the new furnace standing five or six years. 4. A finer quality of glass produced.

Whether these claims can be made good is what we have no means of determining, beyond the authority of the journal from which we derive these particulars.

THE Republican County Convention, yesterday, passed a resolution, by a unanimous vote, very handsomely complimenting Mr. Moorhead and Mr. Williams for the marked ability and faithfulness with which they have represented Allegheny county in the Congress of the United States. This testimonial has been fairly earned. While these two Representatives differ essentially in temperament, in aptitudes, in capacities, and in acquirements, they have severally strong qualities which make them exceedingly valuable in the public service. In many respects their very diversities fit them for increased usefulness when heartily co-operating for the attainment of a common end.

THE Philadelphia *Press* makes an excellent and timely suggestion, which is, that henceforward committees or individuals in getting up political meetings announce so many and no more speakers than really agree to attend. The other plan has been run to considerable excess.

COL. J. BUCHANAN [illegible] notorious forger, whose history qualifies him those parts, is again in Chicago. His pen he misguided, and we believe be the most polished rogue of the age, as well as the best engraved and naturally gifted.

A PENALTY OF REBELLION.

Before the rebellion the assessment for State taxes in the Southern States, showed a much larger amount of personal property, ratably to real estate, than was disclosed by the same means in the Northern States. This excess, and much besides, was the value of the slaves. Of these there were nearly four millions. The aggregate value of these slaves was nearly as much as the present public debt of the United States. So much property was taken from the Southern people. So far as they were personally concerned, it was a confiscation, and a very serious one. Doubtless the Southern States will ultimately have their wealth increased by Emancipation, but this increase of general prosperity will not compensate the former owners of the slaves for the actual loss inflicted upon them. Many from ease and opulence have been reduced to poverty, and in numerous instances there is no probability they will ever retrive their circumstances.

If an actual penalty or assessment had been laid on the Southern people by the General Government, equal to the market value of the slaves, they would have been unable to raise the money, and the levy would everywhere have been regarded as oppressive. But Emancipation, while a severe penalty on the slaveholders, was a great boon to the blacks. It did for them, in a moment, what ages of discussion might have failed to accomplish.

TWO AMENDMENTS to the Constitution of Kansas will come before the people of that State at the next election. By one of these amendments it is proposed to strike out the word "white" from the clause defining the qualifications of voters. This passed the Senate 17 to 7; the House, 66 to 15. By the other, to strike out the word "male" from the same clause. This passed the Senate 17 to 7; the House, 62 to 20. The effect of these two amendments, if ratified, will be to make suffrage universal, in the proper sense. Minors, aliens, criminals, idiots, being alone excluded:

A State Conventioa has been held to promote the movement, at which the Governor presided. Forty-five meetings have already been held. The movement has the support, unexpectedly, of many clergymen, of different denominations. Carl Shurz has promised to address German audiences. At least sixteen newspapers advocate both amendments.

THE COAL MEN of Schuylkill county rest under one great disadvantage in competing with those of Carbon and Luzerne. The larger part of the Schuylkill mines are now worked below the water level, while those of Carbon and Luzerne are still mainly above. Beside the two latter counties have shorter and cheaper access to New York and New England. As the price of coal is lower than ever before, while the costs of labor and transportation are still high, many of the Schuylkill men have suspended operations, preferring to do nothing rather than to do something with a certainty of loss. The Carbon and Luzerne operators, whether individual or corporate, on the contrary, are working all the force they can, with the evident intention of getting control of the market.

THE WORKINGMEN of New York have posted this placard in many parts of that city:

We are opposed to foreign "free trade" for these, among other reasons:

1. *Because* it drains the country of its *gold* to pay for foreign merchandise, and leaves us with a paper currency.
2. *Because* it fills our markets with foreign made goods, which crowd our own *out* of the markets.
3. *Because* workingmen need the greatest possible demand for their labor, which is checked by the importation of goods made by *foreign steam engines*.
4. *Because* it is to the interest of workingmen to have the *greatest diversity of employments*, and the best market for the most remunerative labor.
5. *Because* a diversified and skilled industry forms the *great element of prosperity* in a free and civilized country.
6. Because the man who buys food ought to be a close neighbor to the man who raises food, so that they can *exchange* cloth and iron for corn and beef, with the *lowest cost*.
7. Because trade and transportation *double the cost* to those who consume the products of the hand, or of the land.
8. Because "free trade" was the doctrine of the *traitors and nullifiers* of South Carolina, for which they endeavored to destroy the Union in 1832, and who filled our country with blood and tears by their rebellion, and left the nation covered with graves, and filled with widows and orphans.
9. Because "free trade and slavery" have always been companions in the cause of the traitors, who taught the doctrine that "*capital should own labor.*"

THE St. Louis correspondent of the *Republican* invents the following:

"Sad, touchingly so, is the tale of the daughter of one of the wealthiest merchants on Main street, who married a clerk on three thousand dollars a year salary, against her parents' wishes, nearly a year since. She had scarcely essayed her wedded life before she found its sweets were bitter; her husband did not realize her expectations, and, after much pining in secret and pouting in public, she left his bed and board, and returned to her father's door, leaving the following note for her husband:

"I am going home to father. Be happy. Farewell. MARY."

To her father's house she repaired, but was received by the governor with coldness and scorn, and by the mother who played the second fiddle in their domestic arrangements, with some show of kindness. She left home and tried in vain to support herself. No sooner did rent day come around than she found herself penniless, and going to her father she begged for money to relieve her immediate wants, and set her up in some respectable business. In her desperation she asked: "Where shall I go, what shall I do, father?" "Go to the devil," he heartlessly replied. And feeling herself utterly forsaken, in her wretchedness she said: "I will, and hold you responsible." Leaving her father's door, she at once turned out upon the town, and is now leading a life of shame at one of the pleasure houses of this city.

—A correspondent of the *Christian Instructor* has been inquiring into the religious opinions of the President, his Cabinet and the Senate. The result is as follows: The President belongs to no church. Of the seven members of his Cabinet, Secretary Welles, who is an Episcopalian, is the only church member. Secretary Browning attends the Presbyterian church; the other five, when they go at all, go to the Episcopal. Of the nine Judges of the Supreme Court of the United States, two only are church members; Chief Justice Chase, who is an Episcopalian, and Justice Grier, who has long been a ruling elder in the Old School Presbyterian Church. The United States Senate contains at present fifty-four members. Of these nineteen are professors of religion, two of the nineteen being Unitarians. The seventeen others are distributed among the religious denominations, thus: Episcopal, 1; Reformed Dutch, 1; Baptist, 2; Methodist, 2; Presbyterian, 4, and Congregational, 7. General Grant, when in Washington, is a regular attendant at Wesley M. E. Church. Mr. Taylor, Commissioner of Indian Affairs, and Mr. Gooding, Marshal of the District of Columbia, are also Methodists. Attorney General Stanberry was also raised a Methodist; he is an alumnus of Allegheny College. Secretary Stanton was formerly a class-leader of the M. E. Church. General Howard was formerly a Methodist, but for several years past has been a member (at one time a preacher) of the Congregational Church.

THE Yosemite Valley correspondent of a San Francisco paper is enjoying a charming scene free of expense. He says:—"The Yosemite Fall, just opposite our door, is already thundering down masses of liquid rockets in unspeakable grandeur, and throwing out vast clouds of spray, which, gilded by the morning sun, presents a spectacle of beauty not often looked upon. Besides, there is a bank of snow beneath the leaping water, over three hundred feet deep, in the apex of which a large deep basin is worn, and after the Yosemite plunges into this basin it rebounds upward over one hundred feet. Just after sunrise all the colors of the rainbow are reflected upon the billowy clouds thus formed, and play "hide and seek" with each other, as they are now lost now swaying backwards and forwards, or running up and down, with the ever varying changes of the spray."

PERSONAL.

—The Boston admirers of Louisa Myers have given her a tea set of silver.

—P. C. Headley wrote Baker's book, and not Joel T., as has been said. P. C. is the brother of J. T. and knows less, if possible.

—Helen Western is playing in San Francisco in pieces where she is required to hover on the confines of nudity, to the delight of returned miners who remark "Ha! Ha!"

—A small cottage in the vicinity of the Falls on the Canadian side of the river has been rented for the occupation of Jefferson Davis and his family during the summer. The house is about half way between Clinton and Queenstown.

—Speaking of Greeley's offer of his portrait to every new subscriber, the Springfield *Republican* says: "Mr. Greeley takes an unfair advantage of his competitors. Personal beauty, like virtue, should be its own reward, and really it is not fair nor generous in Mr. Greeley to throw the light of his countenance upon himself in this way, to the disadvantage of those who have not been as lavishly endowed by nature in that way."

—A book has been published in Europe to prove Swedenborg insane. The following account of his eccentric action in the streets of London is new: "He pulled off his clothes, rolled himself in very deep mud, and then distributed money among the crowd which had gathered. In this condition he was found by the Swedish Envoy's footmen, and taken home "very foul with dirt." Brockmer then took him to a lodging near Dr. Smith's, to which he walked very quietly, and when there asked for a tub of water and six towels, and locked himself in an inner room. As it was feared that he would hurt himself, the door was forced, and he was found washing his feet. He asked for six more towels. Mr. Brockner took the precaution of leaving six men in charge of the poor enthusiast, who, he says, for some time believed himself to be the Messiah."

—The English papers contain the following remarkable announcement of the marriage of the grand-daughter of Admiral Stewart, U. S. N. ("Old Ironsides.") The exact relationship of the other parties mentioned is not very easy to determine: "On the 30th April, at St. George's Church, Dublin, by the Very Rev. the Dean of Ardagh, cousin to the bridegroom, Captain R. Munroe Dickinson, Esq., of Kingstown, county Wicklow, to Emily Georgia, second daughter of the late John Parnell, Esq., D. L., of Avondale, county Wicklow, grand-daughter of Rear Admiral Charles Steward, U. S. Navy, great grand-daughter of Sir John Parnell, Chancellor of the Irish Exchequer, and of the Hon. Hugh Howard, Bushy Park (brother to Earl of Wicklow,) and Colonel W. Tudor, Aide-de-Camp to General Washington, and grand neice of Sir Ralph Howard, Bart., and of the late Viscountess Powerscourt.

REMEMBER

That Sickness at the Stomach, Pain between the Shoulders and in the Right Side, Yellow Suffusion of the Skin, Costiveness, Drowsiness and Languor, Dimness of Sight, Colic, Palpitation of the Heart, Dry Cough, Low Fever, and other symptoms which indicate the various phases of Acute and Chronic Liver Complaint, are, one and all, promptly relieved, and finally removed, by the action of that famous preparation,

HOSTETTER'S STOMACH BITTERS,

Which is at once the best of correctives, the gentlest and most genial of aperients, an infallible regulator, and a powerful restorative. Persons of a bilious habit, who use the Bitters as a protective medicine, will never suffer the pains and penalties of Liver Disease or Bilious Remittent Fever. No words can do justice to its

MARVELOUS PROPERTIES.

It stands pre-eminent among the health restoring preparations of the age, and every year adds to its fame, not only in this country, but throughout the civilized world.

PINUS CANADENSIS.

A tree which is abundant in Canada, Nova Scotia, and the more northern parts of the New England States, and is also found in the elevated and mountainous regions of the Middle States, and abounds in medicinal virtues. Dr. Swett, of Boston, has prepared a medicine from the sweet inside bark of pine tree, called Dr. SWETT'S WHITE PINE COMPOUND, which is one of rare value in all debilitated states of the kidneys. It acts like a enarm in all diseases of mucous membranes, enabling them to regain their ost tone and energy. It will be found well adapted to all those diseases, where Balsam has been tried and failed. It is likewise well suited to chronic coughs, and an infallible specific for old and debilitated cases of catarrh. Many persons who at first only took a bottle of this medicine, to try, afterwards took half a dozen, or half dozen, which effected radical cures of diseases of the bladder and kidney of years standing.

Diabetes, a disease that has been looked upon as among the incurables, is immediately relieved by it. Notice the certificate of Asa Goodrich, published some time ago.

The *United States Dispensatory*, speaking of the pine, says: "It is prescribed in leucorrhœa, gleet, and other diseases of the urinary passages; in piles and chronic inflammations or relaxations of the bowels, in chronic catarrhal affections, and in various forms of rheumatism." It is exceedingly valuable in all gravelly affections, bloody urine, and where there is red and white sediment. It can be taken without interruption to one's usual vocations; and instead of sickening, produces a bracing, healthy power of endurance and vigor. Price, $1 per bottle. Call for Ask for POLAND'S WHITE PINE COMPOUND. For sale by the gross, dozen or single bottle, at DR. KEYSER'S Great Medicine Depot, 140 Wood street. ap20

NOTICE TO CONTRACTORS.

CONTROLLER'S OFFICE,
City of Allegheny, June 5th, 1867.

SEALED PROPOSALS will be received at this office until MONDAY, 10th inst., at 5 o'clock p. m., for the necessary excavation for 10 000 feet, more or less, of 12 inch water pipe, with the necessary branches, stop cock and fire plugs, the trench to be filled after the pipe has been laid; and wherever paving has to be taken up for the purpose of excavating, it must be re-laid by the contractor. Bidders will state price per cubic yard.

Bids will also be received at the same time (per lineal foot,) for the laying of the above amount of pipe, branches, &c., &c. The pipe, branches, stop cock and fire plugs will be delivered along the line of excavation. All other material to be furnished by the contractor.

Any information required as to details will be given by GEO. N. MILLER, Esq., Superintendent of Water Works, under whose supervision the work is to be done.

The right is reserved to reject any and all bids.

R. B. FRANCIS,
City Controller.

je5:n&10

BUILDING PROPOSALS.

PROPOSALS WILL BE RECEIVED by the BIRMINGHAM GAS COMPANY for excavating a Tank for a Gas Holder, the excavation to be about 90 feet in diameter by 25 feet in depth.

Also, for LAYING A STONE WALL around the sides of said Tank, three feet in width at the bottom by two feet at the top and twenty-four feet in height. Said wall to be built of good, large-sized stone, and thoroughly filled in with mortar.

Further proposals are desired for furnishing about 400 bbl. K. and laying a wall and floor within the above named stone wall.

The best quality of hard brick will be required, and they must be carefully laid in cement, the latter to be furnished by the Gas Company. The entire work to be done to the satisfaction and approval of the Gas Company, who also reserve the right to refuse all bids received.

Proposals should be sent to the office of the Company, in Birmingham, where the lot to be excavated will be shown, and further information given. Bids will be received until the 15TH OF JUNE.

D. ROBINSON,
Secretary.

Owen Smith vs William Reis. Before reported. Plaintiff took a non-suit.

John Hall vs. S. H. W. Gill. Execution attachment against John C. Bidwell as garnishee of James A. Speer. The money in controversy was paid into Court, when the defendant in the case, Mr. Gill, put in the plea that it belonged to him and not to Speer, so the action was to try this question. The amount involved is some $700, which Mr. Gill claims for professional services rendered to Mr. Speer. Jury out.

Adjourned till 10 a. m. to-day.

Court of Quarter Sessions.

This Court met Tuesday morning at ten o'clock. Hon. Thomas Mellon on the bench. Col. L. B. Duff, District Attorney. Not much business was transacted, the Court as yet not having got fairly under way.

CONVICTED OF BIGAMY.

A jury was sworn to try the case of the Commonwealth vs. William *alias* Charles McCreery, indictment bigamy, James Campbell prosecutor. It was alleged that the accused was married in August, 1862, in Washington county, to Miss Josephine Gray, and that in October, 1864, in this county, notwithstanding the fact that his wife was in full life, he was joined in marriage with Miss Ellen Campbell, whose relatives reside in the vicinity of Shaner's station, on the Pittsburgh and Connellsville Railroad. These facts were clearly proven, and the jury found a verdict of guilty. Sentence deferred.

STOLE A CLOAK.

Henry Dunmore was arraigned upon an indictment charging him with the larceny of a cloak from W. S. Brown, No. 90 Fulton street, in the Sixth ward. The jury convicted and the prisoner was sentenced to undergo three months imprisonment in the county jail.

No other cases were taken up, the Court adjourning till ten o'clock this forenoon.

Meeting of the Pittsburgh Petroleum Association.

A special meeting of the Pittsburgh Petroleum Association was held yesterday at three o'clock, at their rooms in Dalzell's buildings, corner of Duquesne Way and Irwin street. The attendance was unusually large, nearly all the refiners and oil dealers being present. The President, R. W. Burke, Esq., presided, and H. M. Long, Esq., officiated as Secretary.

The minutes of the last meeting were read and adopted.

Charles Lockhart, Esq., from the Committee on Conference in regard to the rate of freight on the Pennsylvania Railroad, reported that he had called on Mr. Houston, freight agent of the road at Philadelphia, and that he offered to reduce the freight on oil to Philadelphia; but preferred to learn first from the Association, and asking him (Mr. Lockhart,) what rate would be acceptable to the refiners. Mr. L. told him that it was the wish of the refiners to have oil shipped at forty cents per hundred pounds, in order to enable them to compete with refiners in Cleveland and other places.

On motion of Mr. Waring, the report was accepted.

Mr. Burke, Esq., reported that he, in company with Mr. Kirk, had an interview with Mr. McCreight, freight agent at Pittsburgh of the Pensaylvania Railroad, and that he (McCreighton) offered a reduction of five cents per hundred pounds on shipments of freight. They replied that no reduction less than fifteen cents per hundred pounds would be acceptable to the Pittsburgh refiners; that Cleveland refiners can "bridge" oil at four cents per gallon, while it costs the Pittsburghers six cents.

Mr. Forsythe reported that he had a conversation with Mr. Houston, and that the latter seemed to favor a reduction of rates of freight.

Mr. Burke reported that oil could now be shipped to New York by way of Cleveland cheaper than by the Pennsylvania Railroad to Philadelphia.

Mr. Kirk also stated that the cost of shipping oil from Cleveland to New York was but one dollar and twenty cents per barrel, while the cost of shipping the same from Pittsburgh to Philadelphia was one dollar and eighty cents per barrel.

On motion of Mr. Kirk, the following committee was appointed to draft resolutions expressive of the sentiment of the Association on the subject:

David Kirk, Chas. Lockhart, R. S. Waring, Wm Forsyth, B. Musgrave, J. Myers and E. Shaik.

This committee retired, and after an absence of half an hour, reported the following for the consideration of the Association:

Your committee beg leave to report the following resolutions:

WHEREAS, It has become an absolute necessity for the petroleum interest of Pittsburgh and vicinity, that a reduction should be made from the present high rates of freight to the east, which, by the Pennsylvania Railroad Company, are over double the rates charged by the northern routes, this building up the refining interest elsewhere to our detriment, and if continued, to the entire destruction of the petroleum interests of Pittsburgh, and necessitating a corresponding loss to the Pennsylvania Railroad Company, therefore

Resolved, That a committee be appointed to confer immediately with the officers of the Pennsylvania Railroad Company, to secure a permanent and reasonable reduction in their rates of freight sufficient to enable shippers by their road to compete with shippers of petroleum at other points.

Resolved, That should this committee be unsuccessful in effecting a sufficient reduction in freights, it is recommended that the committee be empowered to confer and make arrangements with other routes.

On motion of Mr. Davis, the report was accepted, and the resolutions taken up seriatim and adopted.

H. M. Long, Esq., offered the following resolution:

Resolved, That in the opinion of this meeting, the rates of freight between Pittsburgh and Philadelphia, should not exceed thirty cents per one hundred pounds.

An amendment, offered by Mr. Waring, making the rate thirty-five cents, was lost.

After several amendments and considerable discussion, the resolution of Mr. Long was finally adopted.

On motion of Mr. Davis, the following gentlemen were appointed a committee to proceed to Philadelphia and confer with the officers of the Pennsylvania Railroad Company, in regard to the proposed reduction of rates of freight: R. W. Burke, David Kirke, Charles Lockhart, R. S. Waring, Wm. Forsyth, B. Musgrave, J. Myers, E. Schalk, Henry M. Long, A. F. Brooks, John Bell and Fred Fisher.

Meeting adjourned to meet at the call of the Committee.

Lawrenceville Council.

A regular meeting of Lawrenceville borough Council was held Monday evening. Present—Messrs. Sill, Hart, Weisenberger, Anderson, Berger, Meanor, Clerk McCann and Burgess Buffum.

First in order of business was the reading of the report of Wm. Jancey, borough Treasurer. It exhibits a balance in the treasury June 3d, 1867, of $268,83. The report was accepted and filed.

The monthly report of the Street Committee was read, and after considerable discussion was received and filed.

The report states that since the last regular meeting of the Council the streets of the borough have all been examined, and all necessary repairs made, and that the streets are now in good condition as could be expected at this season of the year.

A number of bills against the borough were read and warrants on the Treasurer for their several amounts ordered to be drawn.

The monthly report for May of the weighmaster at the Ewalt street scales was read, and on motion was referred to the Committee on Scales, with instructions to procure a sworn statement from the weighmaster of business at the scales.

A bill was presented from Mr. K. Bracken, for the grading and paving of Borough street, from Butler street to the Allegheny Valley Railroad, amounting to $3,728,18. A warrant was ordered to be drawn for the amount.

Another bill of $868,55, from the same party as above, for setting curb stones on Beilefontaine street, was presented, and ordered to be paid.

Bill of James Dunn, $667,20, for grading and paving Beilefontaine street, from Butler street to the Allegheny Valley Railroad, presented and ordered to be paid.

A petition from several citizens, asking an amendment to the ordinance opening Main street, making it only twenty-eight feet wide between Butler street and Irwin alley, and a uniform width of fifty feet south of Irwin Alley to the turnpike, was laid on the table.

A bill of the Commonwealth against the borough of Lawrenceville for taxes, amounting to $66,74, was passed upon, and a warrant for the amount ordered to be drawn.

On motion, a Committee of Three was appointed, to ascertain if the street Commissioner had awarded the late contracts for grading and paving streets to the lowest bidder. Messrs. Anderson, Smith and Berger were appointed said Committee. Adjourned.

The Late Col. Riddle.

Of the late Lieut. Col. Wm. Riddle, the Philadelphia *Bulletin* says:

"On his return to civil life, Colonel Riddle made Philadelphia his home, and the charm of manner and disposition which he made him such a favorite in the field, secured him a large share of social success here. Handsome alike in face and figure, carrying with him to the gravethe scars of his battle-wound, and showing in his attenuated form, the hard struggle that he had for life against camp fever and Confederate ague, graceful, affectionate, the life of every little or great circle in which he was brought, he had died at a time when he was beginning to find himself thoroughly at home among us, with a future, that seemed to ensure everything that he could wish, just fairly opening to him. With the tenderly of a truly brave man, he was the last to speak of his services or experiences in the field; and to many of his acquaintances in civil life, very little was known of his merits as a soldier. It is, however, to his comrades in arms that his death will perhaps bring the most lasting sadness—at least to that family circle in which even now no memory of what he was can bring comfort for his loss. To have met death in every form; to have outlived his Colonel, his General and his friends who fell in battle; to have overcome disease incurred in service, and now to yield up his life to the imperfect civilization of the city in which he sought his home, will add bitterness to the blow. His memory will be tenderly cherished as that of a gallant soldier who served his country bravely and well."

Shipments and Production of Petroleum.

The Titusville *Herald* says: From January 1st to May 28th the shipments of petroleum over the Oil Creek Railroad and over the Farmers' Railroad from Petroleum Centre reached four hundred and fifty-three thousand two hundred and fourteen barrels. Of this amount one hundred and eighty-seven thousand seven hundred and twenty-seven barrels were shipped to New York, and one hundred and thirty-seven thousand nine hundred and fifty-eight barrels to Cleveland. During the same time about fifty thousand barrels were shipped by way of the Creek, and about fifty thousand barrels more have been stored in iron tanks, making a total of shipments and storage of five hundred and fifty-three thousand two hundred and fourteen barrels. As the amount at the wells is about the same as it was on January 1st, it leaves, after deducting twenty thousand barrels of Pithole oil which has been shipped over the Oil Creek Railroad, five hundred and thirty-three thousand two hundred and fourteen barrels as the production for the one hundred and fifteen days ending May 28th, of Upper Cherry Run and Oil Creek and its tributaries from Titusville to the Story Farm. This is an average daily production of the district of about three thousand three hundred barrels.

Hosiery and Suspenders, pocket books, albums, note paper and envelopes, pocket books, scissors, knives and forks, paper collars, and many other articles, at private sale, this day and evening, at auction prices, at the Emporium of Smithson, Palmer & Co., 55 and 57 Fifth street.

Execution At Philadelphia.

Gottlieb Williams was hung for the murder of Mrs. Miller, in the Moyamensing Jail yard, at Philadelphia, on Tuesday morning. The execution was witnessed by very few persons, but the crowd outside was very large although quiet. Williams was so feeble, being a cripple, that he had to be assisted to the scaffold; he seemed calm, however, and not afraid to die.

At the gallows he said he was not guilty of the murder of Mrs. Miller, but said that he was willing to die for his other crimes.

At a quarter past eleven o'clock the prisoner's feet were removed, his hands were pinioned behind his back, the noose adjusted, and the white sap drawn over his face. All the others upon the platform then descended, and Williams repeated after his spiritual adviser the following: "God be merciful to me, a sinner."

At twenty-five minutes after eleven o'clock he was launched into eternity. At twelve minutes to twelve o'clock the body was cut down and consigned to friends. The neck was broken, and death was almost instantaneous.

Concentrated Fluid Extract Sarsaparilla

Eradicates ERUPTIVE and ULCERATIVE DISEASES of the THROAT, NOSE, EYES, EYELIDS, SCALP and SKIN,

Which so disfigure the appearance, PURGING the cell effects of mercury, and removing all taints, the remnants of DISEASES, hereditary or otherwise, and is taken by ADULTS and CHILDREN with perfect safety.

TWO TABLESPOONFULS of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

AN INTERESTING LETTER is published in the Medico-Chirurgical Review, on the subject of the Extract of Sarsaparilla in certain affections, by Benjamin Travers, F. R. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states *that no remedy is equal to the Extract of Sarsaparilla; its power is astonishing, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic. This quality constitute, that it is applicable to a state of the system in which, and yet so irritable as renders other substances of the tonic class unavailable or injurious.*

The Pittsburgh Gazette

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 4, 1867.

The New York stock quotations to-day, as received by Mr. P. R. Mertz, were as follows: Gold, 137¾@137⅝; Eighty-one's, 112⅝; Five Twenties, 1862, 109¾; Five Twenties, 1864, 105¾; Five Twenties, 1865, 106⅛; 1865 Consols, 106¾; Seven Thirties, first issue, 106⅝; 2d and 3d, 106⅝; Michigan Southern Railroad, 85⅝; Cleveland & Pittsburgh, 79¾; Pittsburgh, Fort Wayne and Chicago, 97; Erie, 60¾; Chicago and Rock Island, 88¾; Chicago and Northwestern, 35½; do preferred, 59; New York Central, 98½; Reading, 104¾.

Gold opened very strong at 137¾, but gradually declined to 136⅝. It seems that foreign houses are notable to keep up the market, and sell exchange above shipping point. Gold, as an article to carry, is rather unprofitable traffic, not yielding as formerly, from ¼ to ½ per cent. a day to needy borrowers. If no stirring news can be manufactured to temporarily run up the rates of premium holders will get disgusted, sell out and make their losses good by purchases at lower rates. A false quotation of gold, 140½, being received in Iowa, many holders of 139 shuckled every thus sudden rise and their smartness in holding on to what they had, but felt rather sheepish when they could not even sell at yesterday's quotations. Government securities are not quite so firm to-day, although the investment demand is increasing. The share market has still further advanced, and will soon leave a margin for those who bought at the last rise and enable them to shove their load on somebody more sanguine.

Money is extremely scarce, and high rates are paid; it is less the business men that have to stand the heavy discounts, but more to those who have saved money and invested recently beyond their ready means.

—The Treasury, it is understood, has suspended its purchases of the first series of Seven Thirties, and will receive them only in the way of direct conversion into sixty-fives. A large amount of the notes is still outstanding, principally in the hands of financial institutions, which are holding them for conversion into a Five Twenty bond dated from the maturity of the notes. The Treasury will hereafter direct its attention to the funding of the second and third series of Seven Thirties, buying them at the current market rate, and continuing the sale of the new sixty-five bonds. Compound notes come in to the Treasury slowly.

—A Chicago telegram, under date of Saturday, says: The wholesale and importing wine and liquor house of Kirchhoff Bros. has suspended business and made an assignment of all their stock and property. The liabilities of the firm are about $100,000, and are more than covered by their stock on hand and money due. Edward Reinbold is the assignee.

—The statement of receipts and expenditures of the United States for the third quarter of the present year, to the 31st of March, has just been made public, and shows that the receipts from all sources amount to $239,241,694, the principal items of which were from internal revenue, and $46,130,088 from customs. Included in the payments, which aggregate $332,741,040, are $235,594 were for war purposes, and on account of the public debt, interest and premium, about one hundred and seventy-eight millions. These expenditures for the time named, it will be seen, were quite large, only six hundred and a half millions less than the receipts in the same time. This exhibit covers the first quarter of the current year, when the expenditures were much lighter than they have been since. Indeed, during the month of April, and the forepart of the month of May, just closed, the outgoes from the Treasury through the War Department for bounties, the suppression of the Indian war, etc., were so enormous as to create alarm as to the one sequence. The expenditures are lighter now, though there is still some solicitude manifested in relation to the probable demands for disbursements during the month of June and July. These demands have been estimated and present the following results: For interest on bonds to July 1st, about $8,000,000; do. July 15, about $7,000,000; compound interest notes due June 10 and July 15, with three years' interest, about $24,000,000—making a total of nearly $40,000,000 for the purposes enumerated. It is understood that about one hundred millions of Seven Thirties mature in August, but the probability of these will probably be exchanged for Five Twenty bonds.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 4, 1867.

CATTLE.

The supply of Cattle, although light, was larger than last week, reaching close on to six hundred head, and with a very limited demand, the market was a very dull one, though prices, if anything, ruled a shade higher than last week. There was no inquiry for shipment, and the butchers, in consequence of the extreme prices, bought very sparingly, and, as a consequence, about six car loads were left over unsold. Prime to extra retailing cattle sold at from 9¼ to 10¾, gross, and medium grades may be quoted at 8 to 8½. Stock cattle were also a little dull this week, and, if anything, a shade lower—one bunch, we understand, was sold here at just what it cost in Chicago. There was another bunch of very fine still fed cattle (from Steubenville, Ohio) in market this week, making 108 head that have been shipped here from that place by one firm; it is said, and we have no reason to doubt it, that these 108 head of Cattle yielded a profit of five thousand dollars.

SHEEP.

The supply of Sheep was again light this week, though the demand also was light, and the market ruled quiet at about last week's prices. Prime to extra fat retailing Sheep sold at from 6¾ to 7c, and common to medium may be quoted at 4 to 6c. Wooled Sheep, to use a common phrase, are about played out, and there is but little difference made between wooled and clipped. One small drove of the former sold at 7¼c. Lambs are coming in pretty freely, and prices are tending downward—may be quoted at 8c to 9¼ per head.

HOGS.

The market for this kind of stock continues quiet and dull but unchanged. We continue to quote in a retail way at 7 to 7¼ for fair to good averages. Light Hogs would not command more than 6 to 6¼.

REPORTED SALES OF CATTLE.

Myers & Needy retailed 81 head at 6.75 to 9.40. Kraus & Haas 36 head at 8 to 9.70. L. Rothschilds 14 head at 7¾ to 8¾. Glass & Lafferty 40 head of mixed stock at 5 to 9¼, and 34 head of Texans left over. Coulter sold 18 head at 6 to 8. Greenwald & Kahn 80 head at 8½ to 9¾. J. Shamberg 22 head at 8¼ to 9¼. L. Shamberg 19 head at 8¼ to 9¾. N. Carr sold 18 head for Dolan at 9 to 9¾. J. Kerwin reports having sold 31 head of prime Ohio stillers at 9¾. Harlewood & Blackstock 30 head of No. 1 Southern Ohio steers at 9¾ to 10¾. Reis sold 11 head Penna cattle, for Murray, at 9 to 9¾. Katz & Bro. sold 25 head of common Ish stock at 6¾ to 7¾. Marks & Trautman, 58 head. Dolan had 2 cars over, as had also Hudson and Marshall 2 each, so that in all there were about eight car loads left over.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 4, 1866.

The general markets present no new features worthy of special notice. There is no improvement to note in any of the leading commodities, and so long as both dealers and consumers continue to restrict their purchases to the lowest possible point, round lot operations will, of course, be of rare occurrence. In values, there are no remarkable changes to note, though the tendency is still downward, and it is this more than anything else that is clogging business at present.

GRAIN—Wheat is seldom ever mentioned. Oats a little weak and a shade lower. Sale of 1 car on track, at 70; 50 sacks, on wharf, at 70; and 124 bush do at 70c. Corn is dull but nominally unchanged. Prime Shelled, on spot, may be quoted at 93@95; sale of 6000 bush prime Yellow, to arrive, at 88, net, or 90c, gross; small sales in store at $1.05@1.05. Rye is in demand at $1.45. No movement in Barley.

FLOUR—The market continues dull and unsettled with a drooping tendency. We now quote at $13 to $14 for Spring Wheat; $14.50 to $15 for Winter Wheat; and $17.50 to $18 for fancy brands. Rye Flour is selling in store at $9.50. (A private letter from a Flour house in Chicago, predicts a sharp reaction after the present panic has subsided.)

PROVISIONS—There is a steady demand for Bacon at unchanged prices—9½c for Shoulders; 11½c to 12½c for Ribbed and Clear Sides; 15½ for Plain Sugar Cured; 14c for Plain Hams, and 16½c for Canvassed and Mess Pork, $32.50 to $33.

POTATOES—With increased arrivals, and a supply fully up to the demand, the market is a shade easier, though, as yet, prime Peach Blows are still held at $1.50 per bushel, in store. It was reported to-day that there had been an arrival of two car loads from Philadelphia.

BUTTER—There is no improvement to note in the demand, and while the market is quiet, prices remain unchanged—18@18c for good to choice Roll.

CHEESE—We can report sales at 14c for Western Reserve, and 18@18c for Hamburg.

HAY—Is a little dull, the demand having fallen off somewhat, but prime baled Hay still commands $25. Sale of 4 tons good Hay at $25 per ton.

DRIED FRUIT—There is a moderate local demand at 7¾@8¾c for Apples, and 10@14c for Peaches.

OIL—We can report regular sales at 87@88c for No. 2, and $1.08@1.10 for No. 1.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 4, 1866.

CRUDE—There was rather more activity manifested to-day, the transactions, in the aggregate, being unusually large, but there is no improvement to note in the general tone of the market, and prices are a little weak, and spot oil sold at a decline. We can report the following: 2000 bbls, on spot, at 63½c; 2000 bbls for June, after the 20th, seller's option, at 71½c, and 2000 for July, seller's option, at 71½c. Yesterday there was a sale of spot oil at 71½c, and if the sale reported to-day at 63½c can be taken as a fair criterion of the market, a decline of ½c per per gallon is the result; We also heard of a purchase of 1000 barrels at Oil City at $2.80 per barrel, which, if correct, shows a decline of 15 to 20c per barrel, compared with yesterday, when it was quoted at $2.85@2.70.

REFINED—The market for bonded oil continues quiet and dull but unchanged. Sale of 500 bbls on the spot, at 24½; 1000 for all this month, buyer's option, at 24½; and 1000 for October, at 28—all standard white, and all to be delivered in Philadelphia. These are remarkably low figures, the lowest known in the history of the trade, and to most persons it would seem that the bottom has been reached, but this has been the opinion of most of our dealers for some time past, and it still keeps tumbling all the while.

ARRIVALS—But a single arrival reported to-day, two thousand barrels for Fisher & Bro.

IRON AND NAILS.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 4, 1867.

The demand for bar iron is light, though not more so than usual at this season of the year, and stocks are very much reduced. There is a continued good demand for nails, and our nail mills appear to have all the orders they can fill, and it is probable that orders will flow in pretty freely all summer. The following are the card rates—on round iots, a reduction of from 1½@1¾ a cent per pound on iron, and 25 to 50 cents per keg on nails, is made.

RIVER NEWS.

The river continues to recede steadily at this point with nine feet four inches in the channel by the Allegheny marks last evening. The weather continues warm and cloudy, with occasional showers of rain. Business is moderately active at the landing, the offerings of freight being liberal for the season, and particularly this season.

The Argosy got in from Cincinnati about day-light yesterday morning, with a good trip. She leaves to-day as usual at noon, and we hope she will get as she deserves, a good trip.

The Julia, Silver Cloud and R. C. Gray, al from Cincinnati, are among the first boats due. The Kate Robinson, from St. Louis, may be expected in about the latter part of the week.

The Minnie cleared for St. Louis last evening with a good trip, having all the freight she could possibly take, and a fair number of passengers.

The following boats of the coal fleet were in port yesterday afternoon: Whale, Hornet, Lioness, Tom Farrow, Warner, Mary Davage Hyena and O. H. Ormsby. The Tom Farrow was the only one that looked like going out, having steam up.

The Echo left for Oil City last evening with an excellent trip, including a large number of passengers. The Urilka and Ida Rees No. 2 were both in port.

The Importer, Capt. Noss, is now in turn for St. Louis, and will be the first boat out. The Kate Putnam follows the Importer.

The Glasgow and Maggie Hays, en route from Pittsburgh to St. Louis, passed Cincinnati on Sunday, and the Kate Robinson was advertised to leave there for Pittsburgh on Monday. The towboats Collier and Hercules arrived at Louisville on Sunday.

The New Orleans *Times*, of May 31st, contains the following particulars, in regard to the explosion of the St. Mary's:

Early yesterday morning, the nigger boiler of the steamboat St. Mary, Capt. Goodwin, exploded with a loud report, and tore its way out of the steamer. The boiler was used to run the small engine of the vessel for assisting in the discharge of freights about decks. It appears that the boiler is tubular, containing seven flues, and that previous to the explosion it had been filled with water to aid in cleaning out the other and main boilers. When it filled it exploded, and was blown through the larboard side of the boat, making kindling wood of it. In its course, Peter Redmond, the engineer, was badly scalded on the back and arms. Orloff P. Miller was slightly scalded. A colored man was struck on the head with a billet of wood, and was slightly hurt. No other casualities are reported. The nigger boiler was blown out of the St. Mary, over the stern of the Leonidas, lying next to her, into the after part of the ladies cabin of the Ruth, entering at the top, lodging in the Ruth's cabin, cracking and breaking the joists of the cabin floor. The large chandelier in the ladies' cabin of the Ruth was destroyed. The whole larboard side of the St. Mary was literally torn to shreds. The bale of cotton sweeps being torn away, both fell, carrying with them the larboard boiler deck, and they lie now a wreck. The cause of the explosion is a mystery. The cry of powder was raised shortly after the explosion, and a general stampede took place.

The Glendale and Lorena arrived at Saint Louis on Sunday last.

Speaking of the projected new line between Dubuque and Saint Louis, the Dubuque *Times* says:

Yesterday we asked an old steamboatman, who formerly was largely interested in steamboat stock, what he thought of this new move. He replied, "I don't know. Cap. Davidson is m
